

The 11th International Deep-Sea Biology Symposium

9 - 14 July 2006
Southampton, UK

The 11th International Deep-Sea Biology Symposium will be held in Southampton, UK, 9-14 July 2006. It will follow the style of previous Symposiums by providing an informal setting for all members of the deep-sea community to meet, present and discuss the latest results of their research.

We would like to encourage young scientists and PhD students to attend and present their work and to generally encourage the community to submit presentations on the latest interdisciplinary research and work with new technology in both the pelagic and benthic realms of the deep sea.

Further information on the symposium, accommodation and registration etc is available from:

the **Deep-Sea Newsletter (No.34)**

and the **Symposium website:**

www.noc.soton.ac.uk/GDD/DEEPSEAS/symposium

Symposium Programme:

In addition to the basic science sessions we plan a number of events and 'specials':

- **Sun** Early Registration and Icebreaker
- **Mon** Civic Reception
- **Tue** Ocean Management - Special Session
Special Previews of new videos
- **Wed** Visit Portsmouth Historic Dockyard
Dinner aboard HMS *Warrior*
- **Thu** Guest lecture
Underwater Image Competition
- **Fri** Select venue for 12th Symposium
Awards and Prizes
Survivors curry night

Underwater Images:

BP and Kongsberg Maritime will sponsor the: **BP Kongsberg Underwater Image Competition 2006**. Recognising the particular value of good images in the development and wider understanding of our science - the competition will offer cash prizes in several categories - check your slide collection now, it could well pay for your trip to Southampton! For details see: **Competition website**

**11TH INTERNATIONAL
DEEP-SEA BIOLOGY SYMPOSIUM**
SOUTHAMPTON, UK
